

We at VNA Health System and affiliates are excited you have decided to take the next step in joining our care delivery team! It is such an exciting time for you and our team.

Not one to sit back and relax, we continue to evolve in this ever-changing healthcare environment and be proactive in meeting the needs of our patients, while streamlining processes to alleviate the added stress for our clinical staff. VNA Health System has spearheaded a PAC (Patient Advocate Champion) system, allowing our clinicians in the field to concentrate on the assessment and direct care of the patient with follow-up and concerns managed by our in-house case-management team. Through this team approach, you may complete your visits, update our team and then be on your way home for the day. Yes, it is streamlined that much. You are never alone with your visits, as there is always someone available to give guidance and promote confidence in your roll. With the added software integrations, VNA Health System has been able to help decrease documentation with specific phrases to assist.

The well-being of our staff is just as important as that of our patients. Our system promotes and encourages:

Work/Life Balance

Friendly Team Environment

Great Benefits

Professional Support Staff

Excellent Pay Rates

Rewarding Career

Our offices include locations in Shamokin (Corporate Office), Lewisburg, Harrisburg, State College, Lock Haven, and Lewistown. We serve both home health and hospice patients throughout 19 counties in Pennsylvania. Nurses make up a lot of our staff, but we also meet our patients needs with staff Physical and Occupational Therapists, Medical Social Workers, and Volunteers. We also have our Private Duty personal care agencies as well as an Adult Day Care.

VNA Health System provides quality, cost-effective home health care and related services to all persons or families within the service area, regardless of their ability to pay.

Home Health and Hospice is a rewarding career, allowing clinicians the opportunity to establish one-on-one relationships with patients and families. The ability to be able to help a patient and family through the challenging time in their lives is so rewarding with families so thankful for the help, guidance, and assistance.

Complete the application to join our team for an extremely rewarding career in home care nursing.

Any questions or concerns, please call 570-648-8989 and ask for the Clinical Supervisor.
